Aimersoft Video Converter is a total video converter and video joiner to convert video files for your digital video and audio player such as iPod, Zune, PSP, Creative Zen, Archos, Pocket PC and so on.

Aimersoft Video Converter supports various video formats including AVI, Divx, XviD, WMV, MPEG, MPG, FLV, DAT, RM, RMVB, MOV, ASF and it is also a video joiner for you to join several video files into one.

With its advanced conversion technology, Aimersoft Video Converter can complete the conversion with good quality and high speed. It also provides you a series of video editing function, like scene cropping and movie trimming, video effect adjustment. You can set up the parameters besides the default settings, change the resolution, bitrate, framerate, aspect ratio, adjust the brightness, contrast, saturation, etc. You can save all these settings as your profile and need not to set again for next conversion.

Key features:

1. All-in-one video converter, convert AVI, Divx, XviD, WMV, MPEG, MPG, FLV, DAT, RM, RMVB, MOV, ASF and FLV to other formats easily, especially support to convert youtube to video.
