Super DVD to iPod Convert is the fastest DVD to iPod video converter software so far in the world. With Super DVD to iPod Converter, you can convert almost all kinds of DVD to iPod video (mp4) format. Its conversion speed is far faster than real-time, converting one DVD movie only takes half an hour in some high-end computers. Super DVD to iPod Converter supports single-step conversion of DVD video into iPod-ready MPEG-4 format while some other soft wares need two steps which wastes unnecessary time.

Super DVD to iPod Convert is the most powerful DVD to iPod Converter software. With Super DVD to iPod Converter, you may capture and convert any segment of a DVD movie to iPod mp4 format, you may select target subtitle, and you may select audio tracks. Another function is that you may pause converting process any time and the converted part won't be lost. This is especially useful when you have to stop for another job.

Super DVD to iPod Convert is the easiest DVD to iPod Converter software. It is as easy to use as just a few clicks to convert a DVD to iPod! Super DVD to iPod Converter automatically detects your hardware configuration and decide an optimized conversion scheme. Its preview display enables you to observe the whole converting process, making the waiting time enjoyable!
